

INTERNATIONAL SERVICES

OUR TECHNICAL EXPERTS COME ON SITE

On-site installation

We offer regular maintenance and monitoring of your conveyors to ensure the optimization and performance of your plants throughout the year.

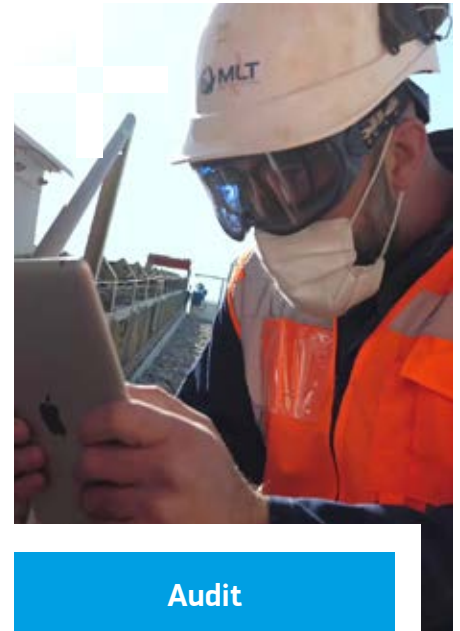

On-site installation supervision

Our technical experts can come to your site to assist you in replacing your equipment anywhere in the world.

Splicing, installation of scraper blades, belt tracker and more.

Our technical experts will help you with any kind of intervention on conveyor belts.

Audit

Our conveyor experts come to your site to diagnose the problems of your installations. Afterwards, we will deliver an audit report with proposals of some corrective actions to increase your productivity and control your maintenance budgets.
