

GlideBar™

Bars / for sealing and support

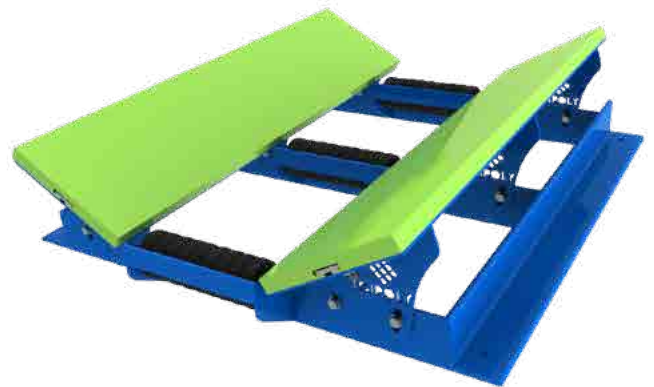

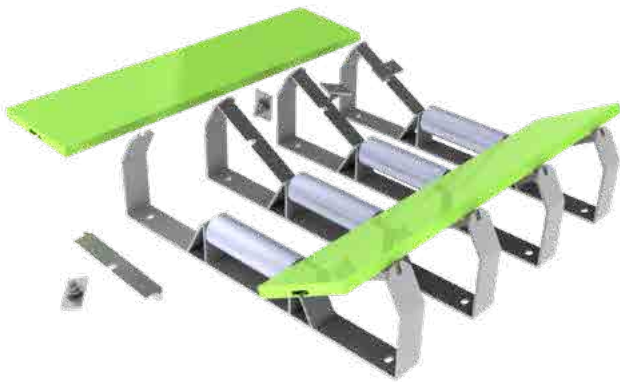

WHY CHOOSE THE GLIDEBAR™ ?

+ The gliding and sealing bar

The idlers are occasional supports for the belt that does not always allow the belt to be totally flat and does not assure a good sealing from the clamping skirt.

The **GlideBar™** are a continuous support which guarantees a flat belt

PACKAGING

According to your needs

As a Kit :

- GlideBar™
- Adapters
- Bolts

Advantages :

- Economic
- Easy mount on existing set of idlers
